

Asbestos Management

*from the desk of Ray Boyd, Director of Operations,
Bolton Public Schools*

The Bolton Public Schools buildings are inspected every six months as required by CT General Statutes 19A-333-1 – 13 of the Regulations of CT State Agencies, "Asbestos-Containing Materials in Schools", to determine any changes in the condition of identified asbestos-containing building materials. Additionally, the school will be re-inspected every three years by an accredited inspector following the same basic criteria as stated in the original plan.

The Bolton Public Schools maintains in its Board of Education office a complete, updated copy of its asbestos management plan. It is available during normal business hours for review. The designated person for the Asbestos Program is Ray Boyd who can be contacted at 860-643-1569. This notification is required by law and is posted at www.boltonpublicschools.com. It should not be construed to indicate the existence of any hazardous conditions in our school buildings.
